## About Campus

Dr. Subhash Technical Campus – Junagadh, are approved by All India Council for Technical Education (AICTE) and Pharmacy Council of India (PCI)-New Delhi, under affiliation to Gujarat Technological University (GTU). The campus offers Degree and Diploma Engineering, Master of Computer Applications (MCA) and B. Pharmacy program. We emphasize on overall development of the students by organizing various curricular, co-curricular activities on a regular basis. We promote industrial visits, training, industrial projects, workshops, symposiums, seminars rigorously. We also prompt our students to participate in various on and off campus technical or non technical events.

## About CE-IT Department

Department of Computer Engineering and Information Technology were established in the year of 2010. They offers Bachelor Degree in Computer Engineering and Information Technology with a vision to provide the sense of creativity, talent and knowledge in computer science.

It has well qualified, experienced and dedicated faculties providing excellent teaching & learning environment. Faculties with industrial background bridge the gap between academic learning and industrial needs.

Best Computer and IT department in GTU-Gujarat, is committed to prepare students for a professional career involving human values and ethical responsibilities toward society.

It has state of art laboratories equipped with latest configuration computers, structured cabling network and high end servers.

## Objective of Workshop

Primary objective of workshop is to discuss the recent trend in Web Designing application and what are challenges and importance of that.

This workshop would provide an integrated platform for understanding the theory and real-time applications associated in this area. Student can learn the latest developments in the field of Web Designing. The distinguished speakers from various domains will share their rich experience and best practices in the field of research.

## Output of Workshop

- \* Web Designing
- \* Creating Responsive Website using Bootstrap framework
- \* Develop Website With Help of HTML5,CSS3, JAVA Script,JQuery,Php and Laravel
